NEEDS ASSESSMENT

The Quality Housing and Work Responsibility Act of 1998 requires that housing authorities set forth in our Annual Plan a Needs Assessment of the housing needs of our jurisdiction and our waiting list. Also, we are required to state how we intend to address these needs.

Attached is the information contained in the Housing Needs Section of our Consolidated Plan. It shows there **is not** a need for additional affordable housing resources in our community for Elderly, Disabled, and Single near Elderly. This need is being met at this time, by the Housing Development Plan of Aurora. Also, per the requirements, we have attached data and tables that provide an analysis of our waiting list.

The information was analyzed in the following manner. We gathered data from our Waiting List.

The Aurora Housing Authority used this analysis to prepare our fiveyear goals and objectives. It reflects our priorities that we have set forth in our Mission Statement.

Our agency is part of the entire effort undertaken by the Aurora, Hamilton County, and State of Nebraska, to address our jurisdiction's affordable housing needs. As stated above, the need for housing includes **a study done by the City of Aurora to address the needs of Housing, which is met by additional housing that in the process of building at this time.** While we cannot ourselves meet the entire need identified here, in accordance with our goals included in this Plan, we will try to address some of the identified needs by using appropriate resources to maintain and preserve our existing stock. When appropriate and feasible, we will apply for additional grants from Housing and Urban Development updating and upgrading for affordable housing available in our community. We intend to work with our local partners Aurora City Council to try to meet these identified needs.

This year, we expect to receive funds for our existing programs from the Comprehensive Improvement Assistance Program or as called Capital Funds Program. We will continue to use those resources to house people. At this time we intend to apply for **additional funds each year to update and upgrade to be able to provide safe, decent, and affordable housing for the residents and future residents of the Authority. We would not be able to meet these goals without the Grants Funding from CFP that is available to the PHA.** Priorities and guidelines for programs often change from year to year and our decisions to pursue certain opportunities and resources may also change over the coming year if there are program changes beyond our control.

There is drug-related crime in this community with a population of less than 5,000 people. The Aurora Housing Authority's are provided the same level of public security and protection as the surrounding neighborhoods and the community at large.

Crimes that are typically reported include domestic disputes, robbery, and vandalism. There is no outward appearing evidence that drugs are being used in the community.

The Aurora Housing Authority maintains basic records documenting the nature and extent of security and crime problems that occur within the public housing communities. These records are made a part of the residents' files as appropriate. Incidences occurring in public spaces and common areas are generally reported to the Aurora Police Department for their action. The Police Department advises the Housing Authority when illegal activities involve residents. Police records involving Housing Authority residents are made available upon request. The Aurora Police Department has expressed their support to cooperate and partner with the Housing Authority on strategies for ensuring the continued safety and security of residents and preventing drug/crime activity from occurring in and around Housing Authority properties.

STATEMENT OF APPROACH TO ASSET MANAGEMENT

The Aurora Housing Authority defines asset management as the ability to manage our Properties in a way that maximizes they're potential to fulfill the mission of the Housing Authority. We are in the process of beginning to implement an asset management System. When completed it will include:

1. A system to profile and measure the performance of the property;
2. A system to determine the financial viability of the property;
3. A system to value the accomplishment of social objectives (i.e. the housing Authority mission); and
4. A system for evaluating options for property.

When these information and analysis systems are in place, we will be able to make Decisions about the best use or disposition of our assets. By understanding the best Community use of the property, the shelter and financial potential of the property, and The operating cost and performance profile of each property, the Aurora Housing Authority will be able to make decisions about how to use our property to best serve The needs of our community, residents, and agency. In a worse case scenario, it will help us Decide if we need to demolish and/or dispose of all or part of a property and how to Replace these units. Our system of analysis will include these steps:

STEP ONE -- DETERMINE THE TARGET POPULATION FOR THE PROPERTY.

Given the community's housing needs as articulated in the Consolidated Plan for our Jurisdiction, what are the greatest housing needs in our community? What populations are not being adequately served by the private market? We will review demographics And waiting list information to make these decisions. Depending on the property and the Composition of the community we can target working families, the elderly, People with disabilities, or single near elderly. Different populations may be most suited To different property.

STEP TWO -- DETERMINE IF THE PROPERTIES ARE ABLE TO SERVE THE IDENTIFIED NEED.

There are three aspects to this point-- are there enough units to serve the need, are Those units physically and structurally sound, and do the units include the amenities Required competing successfully for residents?

If there is an unmet need, the Aurora Housing Authority may seek development partners

Or attempt to acquire additional units to meet the need. If property is not physically Adequate to house the population, we will perform a physical need assessment to Determine whether capital improvements or retrofitting is required to make the property Suitable.

There is one other possible situation: It is possible that there are more units available Than are required accommodating the target population. If this is the case we will seek The best use for these units.

STEP THREE -- COMPLETE A NEIGHBORHOOD STUDY.

An analysis of the surrounding neighborhood will also provide important information About the potential market for the property. If the surrounding neighborhood is Experiencing decline or crime problems, these must be taken into consideration before Any decision is made about making a capital investment in the property.

STEP FOUR -- DETERMINE THE CURRENT COST OF OPERATING THE PROPERTY.

The Aurora Housing Authority must understand how much work is required to keep the Property operating at an acceptable standard. Also, examine the amenities the property Offers. Are the amenities appropriate and costeffective? This is the first step to Understanding the financial stability of the property.

STEP FIVE -- DETERMINE THE POTENTIAL INCOME THE PROPERTY CAN PRODUCE GIVEN ITS BEST USE.

Considering full occupancy, how much rent and subsidy can be generated by each of our Property? By comparing this to the cost of operating the property we will gain Significant information about the financial feasibility of our property. It is likely that an Accurate estimate of this cannot be made until the new rules for the operating fund is Finalized.

STEP SIX -- DETERMINE THE COST OF ANY CAPITAL IMPROVEMENTS OR RETROFITTING REQUIRED TO EQUIP THE PROPERTY TO SERVE THE TARGET POPULATION.

What is the cost of any required rehabilitation or retrofitting? This amount must be Factored into the income potential and operating cost of the property to determine if Retrofitting this property is the best way to serve the identified need. Changes to the Property might include the installation of conversion to handicap Accessible units to the entrance of each unit, keep updating and upgrading of units and The complex as a whole, and complete exterior concrete work, complete installation of

Bi-fold doors in all units, remove linen closets for enlarge living room areas in units, Future changing of the kitchen area likes sinks, drainage, and cabinets, changing lighting System in units to more lighting, exterior storm doors to all units; updating and Upgrading appliances and equipment, landscaping of property; preventative maintenance; Replacement of kitchen cabinets, and sinks; painting and plastering, changing carpets After so many years of use; change apartment entrance doors and storm doors, and Updating and upgrading community room space and administrative building space and Equipment. maintenance shop and storage areas..

STEP SEVEN -- DETERMINE THE COST OF OPERATING THE REHABILITATED PROPERTY.

Will the cost of operating the property be different after improvements are made? If so, this Must be factored into the decision making process.

STEP EIGHT -- COMPARE THE OPERATING COST TO THE POTENTIAL INCOME.

Regardless of the need for the housing, it must be financially feasible to operate the Property. If the Aurora Housing Authority has determined that a property can produce Enough income to sustain itself, the use of the property for the targeted use will Proceed. If a property cannot produce enough income to sustain itself and there is a Need for the housing, we may decide to seek additional support from other properties in the Portfolio or elsewhere in the community. This is reasonable if, in our opinion and the Community's there is great social value in operating the property.

If the social value of operating the property is not sufficient to justify the contribution of Operating support from the rest of the portfolio, the Aurora Housing Authority will seek Disposition or alternate use for the property.

STEP NINE -- DETERMINE THE ABILITY OF THE PROPERTY TO GENERATE ADEQUATE FUNDS FOR AN OPERATING RESERVE.

An additional aspect of a property ability to sustain itself financially is its ability to Generate enough funds not only to pay its operating costs, but also to contribute to a Replacement reserve. The Aurora Housing Authority cannot estimate the need for an Operating reserve until the rules for the new capital and operating funds have been Finalized, but we do intend to continue our current practice of funding operating reserves.

In summary, the Aurora Housing Authority intends to reinvent our public housing as we Know it and move towards a more market-driven, private-oriented management

System while retaining our responsibility to both our residents and the taxpayers.
